

Amendment 1 RFP No: 2017-2 May 11, 2017

Amendment 1 is a change to the details of RFP No. 2017-2 in Section VII Technical Specifications regarding the payment processor for proposed solutions. The awarded Vendor will be required to use the State of Mississippi's approved payment processor, Mississippi Interactive (MSI), at implementation to process electronic payments. There will not be a five year time period allowing for the use of any payment processor other than Mississippi Interactive (MSI).

This change impacts the following areas of RFP No. 2017- 2:

- (1) Technical Specifications section **9.7 Payment Processor** on page 46 of the RFP allows for the use of a different payment processor for up to five years in requirement 9.7.1. This amendment effectively changes the requirement in **9.7.1** which is revised here:

9.7.1 The approved payment processor for the State of Mississippi is Mississippi Interactive (MSI). Vendors responding to this RFP must include MSI as the payment processor for the proposed solution.

A response will be required to the revised 9.7.1.

- (2) A response to **9.7.2** is no longer required for vendors responding to this RFP.
- (3) Also, Vendors please ignore **9.7.5** (empty language) when responding to this RFP.
